

Wildlands Science Research Charter School

Admission Requirements and Checklist

1. Middle School

Students must have achieved a 7th or 8th grade standing by the end of the school year previous to enrollment in the school. Or students must demonstrate they function at, near, or above the grade level they are applying for. Or students must demonstrate, through grade level achievement assessments or staff evaluation, they function at grade level. The number of middle school students admitted will be determined by school staff and Augusta School District administration to maximize the learning potential of the enrolled students.

2. High School

Students applying to the charter school must have at least a 9th grade standing by the end of the school year previous to enrollment in the school. Or students must demonstrate, through grade level achievement assessments or staff evaluation, they function at the 9th grade level or above. Assessments or evaluations are to be administered by the charter school staff in a timely manner to insure consideration for admission. The number of high school students will be determined by school staff and Augusta School District administration to maximize the learning potential of all the enrolled students.
